

## Freight Management and Intermodal Transportation

*Your turnkey program has been a tremendous help to us in both cost and coordination, especially with the used equipment. One phone call and it happens-no worries. Whether it's a delivery in San Jose, or a pick up in Southern California, or just temporarily warehousing product because the customer isn't ready to accept the material, you make it seamless. Thank you again for raising that bar.*

Partner,  
Shelving and Equipment Co.

### **Truck, Air, Rail, Ocean**

Whether you need to move a single box or multiple pallets, the team of experts at The RK Logistics Group will manage your shipping needs through our network of preferred carriers to ensure on-time delivery and competitive pricing.

A single call produces a 24/7 personalized commitment to quickly and efficiently handle freight management across town, throughout North America, or around the world. Once you tender the shipment to us, we take total responsibility. We'll listen to your needs, dispatch the appropriate equipment, track your shipment from pick up to delivery and monitor service performance on your behalf.

When moving your product, we supply the value added services to identify cost-saving opportunities and find the most suitable services for each shipment. Even during the busiest shipping seasons, we locate the proper equipment to get your shipment rolling by truck, air, rail or ship.

Why lease equipment and hire drivers, when The RK Logistics Group can provide a team of professional drivers to handle the loads for you? We excel in all types of road transportation. Our ability to transport any product to and from your facilities with simple operations enables us to provide excellent cost savings for you.

We offer a full range of services including:

- Full Air Ride Truckloads (Dry, Refrigerated, Flatbeds and Expedited Team Service)
- Less Than Truckload (LTL)
- Intermodal (Rail Service)
- Ocean (FCL and LCL)
