

The RK Logistics Group, Inc. Selected Top 100 Third Party Logistics Firm (3PL)

Second Consecutive Year as *Inbound Logistics* Top 100 3PL Provider!

Milpitas, CA. – July 23, 2008 – The RK Logistics Group, Inc. has once again been named as a Top 100 third-party logistics (3PL) firm in the country, according to *Inbound Logistics Magazine*, a leading publication for business logistics and supply chain managers.

“Each year, Inbound Logistics editors select the best logistics solutions providers by carefully evaluating submitted information, conducting personal interviews and online research, and comparing that data to our readers’ burgeoning global supply chain and logistics challenges. IL editors selected this year’s class of Top 100 3PLs from a pool of more than 300 companies. The service providers we selected are companies that, in the opinion of IL editors, offer the diverse operational capabilities and experience to meet readers’ unique supply chain and logistics needs,” says Felecia Stratton, the magazine’s editor.

Ms. Stratton further explains, “One hallmark of a Top 100 3PL is its ability to enable growth and innovation for its customers. 3PLs that act as business change agents drive customers to build business, attain visibility, reduce costs, and compete in a global economy. That is what The RK Logistics Group does, and why we are pleased to recognize them as a 2008 Top 100 3PL.”

“The philosophy of The RK Logistics Group, Inc. is to provide the highest level of service while tailoring customer transportation and logistics solutions to our client’s exact specifications. Being selected as a “Top 100” 3PL for the second consecutive year affirms our commitment to our customers and confirms that our basis for business - - Integrity. Honor. Trust - - is a formula for success. This is quite an honor,” said Rod Kalune, President.

“It’s a global world, and without the best-in-class supply chain solutions offered by Top 100 companies such as The RK Logistics Group, Inc., business logistics professionals going global would face enormous difficulties.
